

Network/Telephony Architect

Location: Denver, CO

Compensation: Competitive

Term: FTE

Ethix Solutions is seeking a seasoned Network Architect for our Denver Operations. Ideal candidate must have strong experience with IPv6, MPLS, Cisco Routing, and Unified Code.

Should have extensive experience as a Network Engineer/Architect, in-depth knowledge of the OSI Model and industry protocols, IP Telephony, Cisco VOIP, Metro Area Ethernet, FT1-OC192/10Gig circuits, Call Manager, SIP, Call Routing, and other associated protocols.

Experience in router, switch, and fault-tolerant redundant environments, configuration, troubleshooting, and hardware maintenance. Experience working with service providers testing and troubleshooting.

Necessary Skills:

- Solid Understanding of IP Networking (TCP/UDP, BGP, OSPF, MPLS)
- Solid Understanding of Internet Protocols (DNS, SNMP)
- Solid Understanding of WAN Protocols (SONET, PPP, ATM, HDLC, FR)
- Solid Understanding of LAN Protocols (VRRP, Spanning Tree, Ethernet, VLAN, HSRP)
- Should be an excellent communicator with heavy customer facing background.
